SECTION 702 Enforcement of Plan

The standards and requirements of this Plan and the obligations of any owner participation agreement may be specifically enforced in a civil suit.

ARTICLE VIII - FINANCING

SECTION 801 Methods of Financing the Project

A. The proposed method of financing the redevelopment of the Project Area is as follows:

1. A grant in the amount of \$442,099.00 which shall be sought by the City of Fresno from the United States of America (hereinafter called the "Federal Government") pursuant to the Public Works and Economic Development Act of 1965, Public Law 89-136, or as such act may be amended or superseded.

2. In addition to the foregoing, the Agency may, from time to time, make application to the Government for project temporary loans in the estimated amount of \$1,000,000.00. The obligations evidencing the Agency's indebtedness to the Government for the project temporary loan shall be in a form satisfactory to the Government. Said obligations shall not be a debt of the City of Fresno, the State of California or any of its political subdivisions. Neither the City of Fresno nor the State of California shall be liable on said obligations nor in any event shall the obligations be payable out of any funds or properties other than those of the Agency, and the obligations shall so state on their face.

3. The Agency may from time to time borrow money by any means legally available to it, including the issuance of bonds, and it may expend such money for any or all of the following purposes:

a. Repayment of moneys lent or advanced by the Federal Government or by the City of Fresno or by any other public or private entity for planning this Redevelopment Project.

b. Acquisition of Project land and existing improvements.

c. Demolition and clearing of property acquired by the Agency pursuant to the provisions of this Plan.

d. Expenses in connection with disposition of Project land.

e. Expenses of administering this Plan, including repayment of interest on loans to the Agency.

Any such contributions in connection with the Project shall be included in the gross project cost to the extent that they are determined to be eligible for such inclusion and shall further be held to be a portion of the local share of the net project cost.

B. The Agency may issue bonds, and such bonds may be sold, as the Community Redevelopment Law may now or hereafter be amended to provide.

C. All taxes levied upon taxable property in the Project Area each year by or for the benefit of the State of California, County of Fresno, City of Fresno, and any district or other public corporation (hereinafter sometimes called "taxing agencies") after the effective date of the ordinance approving this Urban Renewal Plan, shall be divided as follows:

1. That portion of the taxes which would be produced by the rate upon which the tax is levied each year by or for each of the taxing agencies upon the total sum of the assessed value of the taxable property in the Project Area as shown upon the assessment roll used in connection with the taxation of such property by such taxing agency, last equalized prior to the effective date of such ordinance, shall be allocated to and when collected shall be paid into the funds of the respective taxing agencies as taxes by or for said taxing agencies on all other property are paid (for the purpose of allocating taxes levied by or for any taxing agency or agencies which did not include the territory in the Project Area on the effective date of such ordinance but to which such territory has been annexed or otherwise included after such effective date, the assessment roll of the County of Fresno last equalized on the effective date of the annexation ordinance shall be used in determining the assessed valuation of the taxable property in the Project Area on such effective date); and

2. That portion of the levied taxes each year in excess of such amount shall be allocated to and when collected shall be paid into a special fund of the Agency to pay the principal of and interest on bonds, loans, moneys advanced to, or indebtedness (whether funded, refunded, assumed, or otherwise) incurred by the Agency to finance or refinance, in whole or in part this Urban Renewal Project. (Unless and until the total assessed value of the taxable property in the Project Area exceeds the total

assessed value of the taxable property in the Project Area as shown by the last equalized assessment roll referred to in paragraph a hereof, all of the taxes levied and collected upon the taxable property in the Project Area shall be paid into the funds of the respective taxing agencies.) When said bonds, loans, advances, and indebtedness, if any, and interest thereon, have been paid, all moneys thereafter received from taxes upon the taxable property in the Project Area shall be paid into the funds of the respective taxing agencies as taxes on all other property are paid.

D. The portion of taxes mentioned in paragraph b are hereby, and in any proceedings of the Agency for the advance of moneys or making of loans or issuance of bonds shall be, irrevocably pledged for the payment of the principal of and interest on such loans, advances, bonds, or other indebtedness.

E. It is estimated that expenditures by the Agency and other public bodies for the planning and execution of this Plan are estimated at \$1,000,000.00, which sum is claimed as eligible for financing under loan and grant provisions of Title I of the Housing Act of 1949, as amended. Such sum is subject to revision.

SECTION 802 Payment for Property Condemned

The project temporary loan and/or any funds borrowed by any or all of the means described above will include funds to pay for property acquired by the Agency. The Agency will pay the fair market value of all properties acquired. In the condemnation of any real property, the Agency will comply with all the provisions of the statutes and Constitution of the State of California relative to the exercise of the right of eminent domain.

- B. There are exceptional circumstances or conditions applicable to the property or to the intended development of the property which do not generally apply to other properties having the same standards, restrictions, and controls.
- C. Permitting a variation will not be detrimental to the public welfare or injurious to property or improvements in the area.
- D. Permitting a variation will not be contrary to the objectives of the Plan.

SECTION 903 Conditions

The granting of any variation may be made subject to

such conditions as shall be deemed appropriate or necessary to assure compliance with the intent and purpose of this Plan or to protect the public health, safety, or welfare. Any condition shall be reasonably related to the needs of the public, or the needs of owners or occupants of the affected property or properties in the neighborhood, which may be caused by the proposed development or use.

SECTION 904 Appeal

Within fifteen days after a decision granting or denying a variation by the Executive Director, any interested person may appeal to the members of the Agency from such decision or the conditions of granting a variation. The appeal shall be in writing, stating the reasons therefor, on a form or in such form as may be required by the Executive Director. The members of the Agency, subject to the requirement of findings in Section 902, above, may affirm, reverse, or modify the decision or the conditions appealed from.

Variation shall mean approval of a deviation from any part of this Plan to the extent that such deviation is not in conflict with or in violation of any law which would otherwise be applicable. No variation shall authorize anything in conflict with any provision of the Fresno Municipal Code or any procedure prescribed thereunder.
