Independent Auditor's Report

To the City Council
City Fresno, California

Report on the Financial Statements

We have audited the accompanying financial statements of the Successor Agency to the Redevelopment Agency of the City of Fresno (the Successor Agency), a fiduciary private purpose trust fund of the City of Fresno, California (the City), as of and for the year ended June 30, 2020, and the related notes to the financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Successor Agency to the Redevelopment Agency of the City of Fresno, as of June 30, 2020, and the changes in fiduciary net position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the schedule of proportionate share of net pension liability and related ratios and the schedule of contributions, as listed in the table of contents, be presented to supplement the financial statements. Such information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board (GASB) who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 31, 2020, on our consideration of the Successor Agency's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Successor Agency's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Successor Agency's internal control over financial reporting and compliance.

A handwritten signature in black ink that reads "Macias Gini & O'Connell LLP". The signature is written in a cursive, flowing style.

SUCCESSOR AGENCY TO THE REDEVELOPMENT AGENCY OF THE CITY OF FRESNO
(A Private Purpose Trust Fund of the City of Fresno, California)

Notes to the Financial Statements
For the Year Ended June 30, 2020

Note 1 – Summary of Significant Accounting Policies

Reporting Entity

On January 26, 2012, the City of Fresno (City) elected to become the Successor Agency to the Redevelopment Agency of the City of Fresno (Successor Agency) in accordance with ABx1 26 (Dissolution Act). An Oversight Board was appointed to oversee the dissolution process. A Private-Purpose Trust Fund, administered by the City, was established to account for the assets and liabilities of the former Redevelopment Agency of the City of Fresno (RDA). The RDA was dissolved on January 31, 2012.

After enactment of the law, which occurred on June 28, 2011, redevelopment agencies in the State of California cannot enter into new projects, obligations or commitments. Subject to the control of the Oversight Board, remaining assets can only be used to pay enforceable obligations in existence at the date of dissolution (including the completion of any unfinished projects that were subject to legally enforceable contractual commitments).

Successor agencies are only allocated revenue in the amount that is necessary to pay the estimated annual installment payments on enforceable obligations of the RDA until all enforceable obligations of the prior redevelopment agency have been paid in full and all assets have been liquidated.

The accompanying financial statements are not intended to present fairly the financial position or changes in financial position of the City in conformity with the accounting principles generally accepted in the United States of America.

Measurement Focus

Fiduciary fund financial statements are used to account for assets held in a trustee or agency capacity and cannot be used to support the City's own programs. Trust funds are accounted for using the economic resources measurement focus and the accrual basis of accounting. With this measurement focus, all assets, deferred outflows of resources, liabilities and deferred inflows of resources associated with operation of these funds are included on the statement of fiduciary net position. Additions are recorded when earned and deductions are recorded when a liability is incurred, regardless of the timing of the related cash flows.

Investment Valuation

The Successor Agency reports their investments at fair value, except for highly liquid money market investments, guaranteed investment contracts, and other investments with maturities of one year or less at time of purchase, which are considered cash equivalents and are stated at amortized cost. Market value is used as fair value for those securities for which market quotations are readily available. Changes in fair value are reflected in the revenue of the period in which they occur.

SUCCESSOR AGENCY TO THE REDEVELOPMENT AGENCY OF THE CITY OF FRESNO
(A Private Purpose Trust Fund of the City of Fresno, California)
Notes to the Financial Statements (Continued)
For the Year Ended June 30, 2020

Note 1 – Summary of Significant Accounting Policies (Continued)

Investment Valuation (Continued)

Statutes authorize the Successor Agency to invest in obligations of the U.S. Treasury, agencies and instrumentalities, commercial paper, bankers' acceptances, repurchase agreements, money market mutual funds and the State Treasurer's investment pool.

Property Held for Resale

Pursuant to Health and Safety Code and within six months after receiving a Finding of Completion from the State Department of Finance, the Successor Agency was required to submit for approval a Long-Range Property Management Plan (LRPMP). The Plan addresses the disposition and use of the real properties of the RDA. The inventory is to present, among other information, the date of acquisition of the property and the value of the property at that time. In addition, the inventory is to include the estimate of the current value of the parcel and if available, any appraisal information.

In fiscal year 2015, the Successor Agency completed its LRPMP. Property held for resale is recorded at the lower of estimated cost or estimated conveyance value. Estimated conveyance value is management's estimate of net realizable value of a property based on current intended use.

Property held for resale may, during the period it is held by the Successor Agency, generate rental income, which is recognized as it becomes earned and is considered collectable.

Deferred Outflows and Inflows of Resources

In addition to assets and liabilities, the Statement of Fiduciary Net Position reports a separate section for deferred outflows of resources and deferred inflows of resources, which represent a consumption or acquisition of net position that applies to a future period(s) and so will not be recognized as an outflow or inflow of resources (expense/expenditure) until then. The Successor Agency records deferred outflows of resources related to charges on refunding, as well as, deferred outflows and deferred inflows of resources related to pension.

The charges on refunding are deferred and amortized over the life of the Successor Agency Tax Allocation Refunding Bonds, Series 2003.

The deferred outflows and deferred inflows of resources related to pension are discussed in detail in Note 5.

Bond Discount

The bond premium and discount is amortized over the life of the Successor Agency Tax Allocation Refunding Bonds Series 2003, using the effective interest method. Bonds payable are reported net of the applicable bond discount.

SUCCESSOR AGENCY TO THE REDEVELOPMENT AGENCY OF THE CITY OF FRESNO
(A Private Purpose Trust Fund of the City of Fresno, California)
Notes to the Financial Statements (Continued)
For the Year Ended June 30, 2020

Note 1 – Summary of Significant Accounting Policies (Continued)

The bond premium is recorded annually as a reduction of interest expense while the bond discount is recorded annually as an increase to interest expense.

Property Taxes

The Dissolution Act amended the allocation of property tax revenue to successor agencies. Property taxes that formerly would have been apportioned to RDA are deposited into a trust fund with the County of Fresno (County), known as the Redevelopment Property Tax Trust Fund (RPTTF). The County administers the RPTTF on behalf of the RDA debt holders, and taxing entities that receive pass-through payments and property tax distributions. This fund is used to pay obligations listed on the Recognized Obligation Payment Schedule (ROPS), including bond debt service, approved by the Successor Agency's Oversight Board, and the California Department of Finance. Any remaining monies in the RPTTF after the approved amounts listed on the ROPS have been paid are distributed to the appropriate taxing entities.

Net Pension Liability and Related Balances

For purposes of measuring the net pension liability, deferred outflows and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position have been determined on the same basis as they are reported by the California Public Employees' Retirement System (CalPERS) Financial Office. For this purpose, benefit payments (including refunds of employee contributions) are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value by CalPERS and not reported by the Successor Agency. CalPERS audited financial statements are publicly available reports that can be obtained at CalPERS' website under Forms and Publications (www.calpers.ca.gov). Reported results pertain to liability and asset information within the following defined timeframes:

Valuation Date (VD) - June 30, 2018
Measurement Date (MD) - June 30, 2019
Measurement Period (MP) - July 1, 2018 to June 30, 2019

Net Position

In the fiduciary fund financial statements, net position is categorized as follows:

- *Net Investment in Capital Assets* consists of capital assets, net of accumulated depreciation, reduced by outstanding debt and deferred outflows/inflows attributed to the acquisition, construction or improvement of these assets. The financial statements do not contain a balance for net investment in capital assets.

SUCCESSOR AGENCY TO THE REDEVELOPMENT AGENCY OF THE CITY OF FRESNO
(A Private Purpose Trust Fund of the City of Fresno, California)
Notes to the Financial Statements (Continued)
For the Year Ended June 30, 2020

Note 1 – Summary of Significant Accounting Policies (Continued)

- *Restricted Net Position* consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets and presents external restricted imposed by creditors, grantors, contributors, laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation. The financial statements do not contain a balance for restricted net position.
- *Unrestricted Net Position* consists of net position that are not restricted for any project or other purpose and do not meet the definition of net investment in capital assets or restricted net position. As of June 30, 2020, there is a deficit net position of \$10,288,691. The deficit is due to the RDA dissolution occurring on January 11, 2012, resulting in noncurrent liabilities of approximately \$16 million that will be paid in future years through future tax increment revenues received as part of the annual ROPS approval process.

Use of Estimates

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 2 – Cash and Investments

At June 30, 2020, cash and investments of the Successor Agency are summarized as follows:

Cash deposits	\$ 4,823,330
Cash on hand	100
Investments:	
Money market mutual funds	936,245
	<u>\$ 5,759,675</u>
 Restricted	 \$ 936,245
Unrestricted	4,823,430
	<u>\$ 5,759,675</u>

SUCCESSOR AGENCY TO THE REDEVELOPMENT AGENCY OF THE CITY OF FRESNO
(A Private Purpose Trust Fund of the City of Fresno, California)
Notes to the Financial Statements (Continued)
For the Year Ended June 30, 2020

Note 2 – Cash and Investments (Continued)

Custodial Credit Risk related to Cash Deposits

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the Successor Agency's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, except that the California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law. The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure City deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposit. The collateral pledged to cover the public fund deposits in California is held in the name of the California Collateral Pool Administrator and is held in their name by the Federal Reserve Bank as custodian. Deposits held by financial institutions in the name of the Fund totaled \$4,641,860 at June 30, 2020. As of June 30, 2020, the Fund's deposits with financial institutions in excess of federal depository insurance limits was \$4,391,860 held in accounts collateralized in accordance with State law as described above.

Cash and Investments with Trustee

Cash and investments with trustee represent amounts held by a trustee bank, which are restricted for servicing long-term debt of the Successor Agency as required by the bond indentures. The trustee as fiscal agent is mandated by the bond indentures as to the types of authorized investments. All investments with the trustee are recorded at fair value. At June 30, 2020, the investments held by trustee in the name of the Successor Agency totaled \$936,245.

Investment Disclosures

Investments Authorized by the California Government Code and the City's Investment Policy

The Successor Agency investments are pursuant to investment policy guidelines established by the City Controller/Treasurer, subject to review by the City Council. The objectives of the investment policy are preservation of capital, liquidity, and yield. The policy addresses the soundness of financial institutions in which the City will deposit funds, types of investment instruments as permitted by the California Government Code, and the percentage of the portfolio that may be invested in certain instruments with longer terms to maturity.

SUCCESSOR AGENCY TO THE REDEVELOPMENT AGENCY OF THE CITY OF FRESNO
(A Private Purpose Trust Fund of the City of Fresno, California)
Notes to the Financial Statements (Continued)
For the Year Ended June 30, 2020

Note 2 – Cash and Investments (Continued)

California statutes and the City's investment policy authorize investments in obligations of the U.S. Treasury, agencies and instrumentalities, bankers' acceptances, negotiable certificates of deposit, GC53601.8 CD's, repurchase agreements and the State Treasurer's investment fund. The City's investment policy also authorizes reverse repurchase agreements, but the Successor Agency did not enter into any reverse repurchase agreement transactions during fiscal year 2020.

The following table identifies the investment types that are authorized for the City's Investment Policy by the California Government Code or the City's investment policy, where more restrictive. The City's maximum percent limit of portfolio for government sponsored enterprises agency notes is 70% versus 100% for California Government Code. The table identifies the investment type, the maximum length of time to maturity for each investment, the maximum percentage of the portfolio that can be invested in each type of security and the maximum amount of the portfolio that can be invested in any single issuer of investments.

The table does not address investments of debt proceeds held by bond trustees that are governed by the provisions of debt agreements of the City rather than the general provisions of the California Government Code or the City's investment policy.

Authorized Investments	Maximum Maturity	Maximum % Limit of Portfolio	Maximum % Limit of Portfolio Per Single Issuer
City of Fresno Debt	5 Years	100%	100%

SUCCESSOR AGENCY TO THE REDEVELOPMENT AGENCY OF THE CITY OF FRESNO
(A Private Purpose Trust Fund of the City of Fresno, California)
Notes to the Financial Statements (Continued)
For the Year Ended June 30, 2020

Note 2 – Cash and Investments (Continued)

Concentration of Credit Risk

The investment policy of the City contains the following limitations on the amount that can be invested in any one issuer which is more restrictive than those stipulated by the California Government Code. While the State has no limit on the percentage of the Portfolio that can be invested in a single U.S. Government Agency Security, the City's Investment Policy limits investment in any one issuer to 50% of the Portfolio. Also, while the State limits investments to 30% of the Portfolio for any single issuer of Medium Term Notes, the City's Investment Policy limits investments to 20% of the Portfolio invested in any single issuer.

Investments in any one issuer that represent 5% or more of the total unrestricted investments or investments with trustees are as follows:

Investments Held by Trustee:

Money Market Mutual Funds: INVESCO GOVT AGENCY INSTL 1901 100%

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater will be the sensitivity of its fair value to changes in market interest rates. One of the ways that the Successor Agency manages its exposure to interest rate risk is by purchasing shorter term investments to provide immediate cash flow and liquidity needed for operations.

Interest rate risk related to the Successor Agency's investments is disclosed in the following table. As of June 30, 2020, the City had the following cash and investments in its portfolio:

Investment Type	Fair Value	Investment Maturities	
		Less than 1 Year	1 to 5 Years
Investment Held by Trustee:			
Money Market Mutual Funds	\$ 936,245	\$ 936,245	\$ -

Fair Value Hierarchy

The Successor Agency categorizes its fair value measurements within the fair value hierarchy established by U.S. generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure fair value of the assets. Level 1 inputs are quoted prices in an active market for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. No investments were subject to fair value hierarchy.

SUCCESSOR AGENCY TO THE REDEVELOPMENT AGENCY OF THE CITY OF FRESNO
(A Private Purpose Trust Fund of the City of Fresno, California)
Notes to the Financial Statements (Continued)
For the Year Ended June 30, 2020

Note 2 – Cash and Investments (Continued)

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Successor Agency will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. At year-end, the Successor Agency's external investment pools and specific investments did not have any securities exposed to custodial credit risk and there was no securities lending.

Credit Risk

The City's investment policy sets forth the minimum acceptable credit ratings for investments from any two of the following nationally recognized statistical rating organizations. The investments held by the Successor Agency are unrated.

Note 3 – Property Held for Resale

Property held for resale is recorded at the lower of estimated cost or estimated conveyance value. At June 30, 2020, the cost of land and improvements is \$5,496,094 with an estimated net realizable value of \$292,968.

Note 4 – Long-Term Liabilities

The following is a summary of changes in long-term liabilities for the period July 1, 2019 through June 30, 2020.

	Balance July 1, 2019	Additions	Discount Amortization	Retirements	Balance June 30, 2020	Due Within One Year
Tax Allocation Bonds:						
Series 2003, Mariposa Project Area	\$ 1,534,720	\$ -	\$ 1,271	\$ (353,000)	\$ 1,182,991	\$ 370,000
Notes Payable:						
California Infrastructure Bank	1,354,593	-	-	(70,047)	1,284,546	72,519
Other Long-Term Liabilities

Note 4 – Long-Term Liabilities (Continued)

2003 Tax Allocation Refunding Bonds, Series 2003: Mariposa Project Area

2003 Tax Allocation Refunding Bonds, Series 2003 (Mariposa Project Area) were issued on August 22, 2003. Proceeds were used to refund the RDA's 1993 Tax Allocation Bonds, Series A (Mariposa Redevelopment Project). Interest ranges from 5.125% to 5.625% on bonds outstanding. Principal is due in annual installments of \$353,000 to \$418,000 through February 1, 2023; interest is due annually. The principal amount due is reported net of an issuance discount of \$2,009.

Repayment of the bonds is payable solely from tax increment revenues allocated to the Successor Agency's Mariposa Project Area. All of the above revenues are pledged. Revenues are pledged until fiscal year 2023 for a total debt service of \$1,321,013. During fiscal year 2020, \$439,072 Mariposa Project Area tax increment revenue was recognized, while the 2020 debt service was \$439,071.

California Infrastructure and Economic Development Bank Loan

On March 18, 2004, the RDA entered into a thirty year tax allocation loan from the California Infrastructure and Economic Development Bank in the amount of \$2,118,000. Proceeds were used to complete the Roeding Business Park. Principal is due in semi-annual installments ranging from \$70,047 to \$113,845 through August 1, 2033; interest at 3.53% is due semi-annually.

Repayment of the loan is payable solely from tax increment revenues allocated to the Successor Agency's Roeding Project Area. Revenues are pledged for a total debt service of \$1,627,418 until the year 2034. During fiscal year 2020, \$120,692 Roeding Project Area tax increment revenue was recognized, while the debt service was \$116,628.

The annual requirements to amortize outstanding bonds and loans included in the Statement of Fiduciary Net Position as of June 30, 2020, including interest, are as follows:

Year(s) Ending June 30,	2003 Tax Allocation Refunding Bonds		California Infrastructure and Economic Development Bank Loan	
	Principal	Interest	Principal	Interest
2021	\$ 370,000	\$ 66,656	\$ 72,519	\$ 44,065
2022	397,000	45,844	75,079	41,459
2023	418,000	23,513	77,729	38,762
2024	-	-	80,473	35,970
2025	-	-	83,314	33,079
2025-2029	-	-	462,817	118,333
2030-2034	-	-	432,614	31,205
	<u>\$ 1,185,000</u>	<u>\$ 136,013</u>	<u>\$ 1,284,545</u>	<u>\$ 342,873</u>

Note 5 – Retirement Plan

Plan Description - The Successor Agency participates in a public agency cost-sharing multiple-employer defined benefit pension plan (the Plan) administered by the California Public Employees' Retirement System (CalPERS). The Successor Agency is part of the miscellaneous pool.

CalPERS is governed by the Board of Administration (the Board), which consists of 13 members; two elected by CalPERS members, one elected by active State members, one elected by active CalPERS school members, one elected by active CalPERS public agency members, one elected by retired members of CalPERS, two appointed by the Governor, one public representative appointed jointly by Speaker of the Assembly and Senate Rules Committee and four ex officio members: State Treasurer, State Controller, Director of California Department of Human Resources and Designee of the State Personnel Board. The Board of Administration is responsible for the management and control of CalPERS, including the exclusive control of the administration and investment of the Plan. CalPERS acts as the common investment and administrative agency for the Plan.

The Plan was established to provide retirement, death and disability benefits, and the benefit provisions for Plan employees are established by statute. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is the Optional Settlement 2W Death Benefit. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

Contributions – In January 2013, the California Public Employees' Pension Act (PEPRA) took effect which changes the way CalPERS retirement and health benefits are applied, and places compensation limits on members. Individuals hired on or after January 2013 are under PEPRA. All members, who do not fall under this category, are considered classic member. Classic member will retain existing benefit levels for future service with the same employer.

Section 20814(c) of the California Public Employees' Retirement Law (PERL) requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through the CalPERS' annual actuarial valuation process. The Plan's actuarially determined rate is based on the estimated amount necessary to pay the Plan's allocated share of the risk pool's costs of benefits earned by employees during the year, and any unfunded accrued liability. The employer is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. For the fiscal year ended June 30, 2020, the active employee contribution rate was 6.906 percent of annual pay while the employer's contributions rate was 10.221 percent of annual payroll.

(A Private Purpose Trust Fund of the City of Fresno, California)
Notes to the Financial Statements (Continued)
For the Year Ended June 30, 2020

Note 5 – Retirement Plan (Continued)

Actuarial Methods and Assumptions Used to Determine Total Pension Liability - For the measurement period ended June 30, 2019 (the measurement date), the total pension liability was determined by rolling forward the June 30, 2018 total pension liability. Both the June 30, 2018 total pension liability and the June 30, 2019 total pension liability were based on the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Normal
Actuarial Assumptions:	
Discount Rate	7.15%
Inflation	2.50%
Salary Increases	Varies by Entry Age and Service
Investment Rate of Return	7.15% net of pension plan administrative expenses
Mortality Rate Table ¹	Derived using CalPERS' Membership Data for all Funds
Post Retirement Benefit Increase	Contract COLA up to 2.50% until Purchasing Power Protection Allowance Floor on Purchasing Power applies, 2.50% thereafter

¹ The mortality table used was developed based on CalPERS-specific data. The table includes 15 years of mortality improvements using Society of Actuaries Scale 90% of scale MP 2016. For more details on this table, please refer to the December 2017 experience study report (based on CalPERS demographic data from 1997 to 2015) that can be found on the CalPERS website.

All other actuarial assumptions used in the June 30, 2018, valuation were based on the results of an actuarial experience study for the fiscal years 1997 to 2015, including updates to salary increase, mortality and retirement rates. The experience study report can be obtained at CalPERS' website under Forms and Publications.

Discount Rate - The discount rate used to measure the total pension liability was 7.15 percent. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 7.15 percent discount rate is adequate and the use of the municipal bond rate calculation is not necessary. The long term expected discount rate of 7.15 percent is applied to all plans in the Public Employees Retirement Fund. The stress test results are presented in a detailed report called "GASB Crossover Testing Report" that can be obtained at CalPERS' website under the GASB 68 section.

Notes to the Financial Statements (Continued)
For the Year Ended June 30, 2020

Note 5 – Retirement Plan (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, staff took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These geometric rates of return are net of administrative expenses.

Asset Class	New Strategic Allocation	Real Return Years 1 - 10¹	Real Return Years 11+²
Global Equity	50.00%	4.80%	5.98%
Global Fixed Income	28.00	1.00	2.62
Inflation Sensitive	-	0.77	1.81
Private Equity	8.00	6.30	7.23
Real Estate	13.00	3.75	4.93
Liquidity	1.00	-	(0.92)

¹An expected inflation of 2.00% used for this period

²An expected inflation of 2.92% used for this period

SUCCESSOR AGENCY TO THE REDEVELOPMENT AGENCY OF THE CITY OF FRESNO
(A Private Purpose Trust Fund of the City of Fresno, California)
Notes to the Financial Statements (Continued)
For the Year Ended June 30, 2020

Note 5 – Retirement Plan (Continued)

Pension Plan Fiduciary Net Position - The plan fiduciary net position disclosed in the Successor Agency's GASB 68 accounting valuation report may differ from the plan assets reported in the Successor Agency's funding actuarial valuation report due to several reasons. First, for the accounting valuations, CalPERS must keep items such as deficiency reserves, fiduciary self-insurance and other postemployment benefits expense included in fiduciary net position. These amounts are excluded for rate setting purposes in the Successor Agency's funding actuarial valuation. In addition, differences may result from timing of financial reporting by CalPERS and final reconciled reserves.

Allocation of Net Pension Liability and Pension Expense to Individual Plans - The Successor Agency's net pension liability for the plan is measured as the proportionate share of the net pension liability. The net pension liability of the plan is measured as of June 30, 2019, and the total pension liability for the plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2018 rolled forward to June 30, 2019 using standard update procedures. The Successor Agency's proportion of the net pension liability was based on a projection of the Successor Agency's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. The Successor Agency's proportionate share of the net pension liability for the plan as of June 30, 2018 and 2019 was as follows:

At June 30, 2018 (MD):		
Net Pension Liability	\$	472,565
Proportion		0.00490%
At June 30, 2019 (MD):		
Net Pension Liability	\$	523,185
Proportion		0.01303%

Sensitivity of the Net Pension Liability to Changes in the Discount Rate - The following presents the net pension liability/(asset) of the Plan as of the measurement date, calculated using the discount rate of 7.15 percent, as well as what the net pension liability/(asset) would be if it were calculated using a discount rate that is 1 percentage-point lower (6.15 percent) or 1 percentage-point higher (8.15 percent) than the current rate:

	Discount Rate - 1% (6.15%)	Current Discount Rate (7.15%)	Discount Rate + 1% (8.15%)
Plan's Net Pension Liability	\$ 838,371	\$ 523,185	\$ 263,021

SUCCESSOR AGENCY TO THE REDEVELOPMENT AGENCY OF THE CITY OF FRESNO
(A Private Purpose Trust Fund of the City of Fresno, California)
Notes to the Financial Statements (Continued)
For the Year Ended June 30, 2020

Note 5 – Retirement Plan (Continued)

Recognition of Gains and Losses - Under GASB 68, gains and losses related to changes in total pension liability and fiduciary net position are recognized in pension expense systematically over time.

The first amortized amounts are recognized in pension expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to pensions and are to be recognized in future pension expense.

The amortization period differs depending on the source of the gain or loss:

Difference between projected and actual earnings	5 year straight-line amortization
All other amounts	Straight-line amortization over the average expected remaining service lives of all members that are provided with benefits (active, inactive and retired) as of the beginning of the measurement period

The expected average remaining service lifetime (EARSL) is calculated by dividing the total future service years by the total number of participants (active, inactive and retired) in PERF C.

The EARSL for the June 30, 2019 measurement date is 3.8 years, which was obtained by dividing the total service years 490,088 (the sum of remaining service lifetimes of the active employees) by 130,595 (the total number of participants: active, inactive, and retired) in PERF C. Inactive employees and retirees have remaining service lifetimes equal to 0. Total future service is based on the members' probability of decrementing due to an event other than receiving a cash refund.

Pension Expense and Deferred Outflows and Deferred Inflows - As of the beginning of the measurement period (July 1, 2018), the net pension liability/(asset) for the plan is \$472,656 (The net pension liability of the Miscellaneous Risk Pool as of June 30, 2019 is \$4,004,500,996).

For the measurement period ended June 30, 2019 (the measurement date), the Successor Agency incurred a pension expense of \$95,883 for the Plan (the pension expense for the risk pool for the measurement period is \$943,590,814). Pension expense is recorded as part of general and administrative expense.

SUCCESSOR AGENCY TO THE REDEVELOPMENT AGENCY OF THE CITY OF FRESNO
(A Private Purpose Trust Fund of the City of Fresno, California)
Notes to the Financial Statements (Continued)
For the Year Ended June 30, 2020

Note 5 – Retirement Plan (Continued)

As of June 30, 2020, the Successor Agency reports other amounts for the Plan as deferred outflows and deferred inflows of resources related to pensions as follows:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Contributions made after the measurement date	\$ 39,237	\$ -
Difference between expected and actual experience	36,337	2,815
Changes in assumptions	24,948	8,844
Net difference between projected and actual earnings on pension plan investments	-	9,147
Changes in employer's proportions	26,428	2,149
Difference between the employer's contributions and the employer's proportionate share of contributions	-	50,176
Total	<u>\$ 126,950</u>	<u>\$ 73,131</u>

The amounts above are net of outflows and inflows recognized in the 2018-19 measurement period expense.

In addition to the figures shown in the table above, each employer is required to recognize an employer-specific expense item and a deferred outflow or deferred inflow of resources related to pensions. This is derived from the difference between actual contributions made by the employer and the employer's proportionate share of the risk pool's total contributions. At July 1, 2019, this difference was \$50,176 and is reported as a deferred outflow of resources as the actual contributions of the Successor Agency exceed the employer's proportionate share of the risk pool's total contributions recognized by the Plan.

\$39,237 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Measurement Period Ended June 30:	Deferred Outflows/(Inflows) of Resources
2021	\$ 22,323
2022	(10,145)
2023	556
2024	1,848

Notes to the Financial Statements (Continued)
For the Year Ended June 30, 2020

Note 6 – Loans from the City of Fresno

Loans over the years between the City and the former RDA were made to provide funds to eliminate blight and to develop, construct, rehabilitate and revitalize Fresno's inner city neighborhood, downtown and industrial areas. The loans were all secured by and payable from the incremental property tax revenues of the redeveloped properties. Interest rates varied between 5% and 9% with payments on the loan and related interest based upon budgetary priority as approved by the former RDA. Redevelopment Agencies were structured such that incremental property tax revenues would continue to be received during the period that the debt remained outstanding.

With the dissolution of the former RDA under ABx1 26, the State established a process whereby Successor Agencies (SAs) are required to draft a Recognized Obligation Payments Schedule (ROPS) delineating enforceable obligations of former RDAs and their source of payment. These schedules are subject to the approval of the local oversight board. Once approved by the oversight board, they are submitted to the Department of Finance (DOF). The DOF has had many issues with the ROPS submitted by SAs, particularly previous agreements between cities and RDAs showing the cities as payee.

The initial dissolution law provided that the Successor Agency would pay "enforceable obligations" of the former RDA. Enforceable obligations primarily included pending contractual commitments of the former RDA. However, the law initially excluded from the definition of enforceable obligations, debt a former agency owed to the city that created it, unless the debt was created in the first two years following the agency's creation or debt that represented third party obligations, such as bonds. Subsequent legislation AB1484 allows limited, conditional repayment of loans by the Successor Agency to the Sponsoring Community (City) through a process that includes approval by the Oversight Board and the State DOF.

The Successor Agency and the City were adamant that the debt owed to the City was ultimately due and owing, subject to the final decision by the DOF, the judgment of a court case (the City of Cerritos), and additional litigation based upon as applied challenges as were being brought. A lawsuit was filed in the Sacramento Superior Court by the City of Cerritos, its redevelopment agency, and nine other Cities and agencies, challenging State legislation. Ultimately, the Courts ruled in favor of the cities.

As it was considered premature to consider the debt owed to the City as being current, an allowance for doubtful accounts was created at June 30, 2011, which totaled \$80,113,531. This amount was reflective primarily of principal and interest accrued over the years on the loans. The allowance was recorded at the full amount of the debt, including principal and interest as the timing of receipt was undeterminable.

SUCCESSOR AGENCY TO THE REDEVELOPMENT AGENCY OF THE CITY OF FRESNO
(A Private Purpose Trust Fund of the City of Fresno, California)
Notes to the Financial Statements (Continued)
For the Year Ended June 30, 2020

Note 6 – Loans from the City of Fresno (Continued)

On June 2, 2014, the former RDA received a letter from the State Department of Finance in which they notified the former RDA that they had completed their Finding of Completion for the Successor Agency. They noted that they had concluded their review of the Successor Agency's documentation and related supporting schedules submitted to substantiate or confirm former RDA's transactions with its sponsoring entity, the City of Fresno. The letter went on to authorize the Successor Agency to place the loan agreements between the former RDA and the City on the ROPS as an enforceable obligation, provided that the Oversight Board made a finding that loans were for legitimate redevelopment purposes pursuant to Health Safety Code (HSC) Section 34191.4(b)(1). It went on to further state that loan repayments would be governed by criteria in HSC Section 34191.4(a)(2). The letter also authorized the use the bond proceeds related to bonds issued prior to January 1, 2011, in a manner consistent with the original bond covenants per HSC Section 34191.4(c).

During the process of researching and providing documentation to the State to support former RDA debt to the City, loans in one project area were revised which resulted in a reduction to the obligation in the amount of \$4,766,817. In certain instances, the State denied several individual loan balances. The Successor Agency also added a payment commitment to the ROPS that arose out of a Disposition and Development Agreement entered into by the City and the former RDA. This commitment added \$1,600,000 to the schedule. Several other adjustments were noted and made which increased the loans by an additional \$88,746.

As of June 30, 2020, the Department of Finance has approved \$13,273,639 of the outstanding loan balance. The Successor Agency requests and receives tax increment as part of the annual ROPS approval process to fund loan repayments. During fiscal year 2020, the Successor Agency used tax increment in the amount of \$4,257,987 to repay \$3,188,043 and \$1,069,944 in principal and interest, respectively.

Twenty percent of any loan repayment received by the City must be deducted from the loan repayment amount and be paid to the City's Low and Moderate Income Housing Asset Special Revenue Fund. Payments to the City's Low and Moderate Income Housing Asset Special Revenue Fund are required under Senate Bill (SB) 107 and are subject to the reporting requirements of subdivision (f) of Section 34176.1. In fiscal year 2020, this amount totaled \$805,621.

The Department of Finance continues to deny \$5,953,280 of the loans, including accrued interest, which are currently under litigation or dispute. As future collectability of this amount is undeterminable, a corresponding allowance for doubtful accounts has been recorded at the end of fiscal year 2020.

SUCCESSOR AGENCY TO THE REDEVELOPMENT AGENCY OF THE CITY OF FRESNO
(A Private Purpose Trust Fund of the City of Fresno, California)
Notes to the Financial Statements (Continued)
For the Year Ended June 30, 2020

Note 7 – New Accounting Pronouncements

The Successor Agency did not implement any recent Governmental Accounting Standards Board (GASB) pronouncements during the fiscal year ended June 30, 2020.

During the year ended June 30, 2020, the Successor Agency implemented Governmental Accounting Standards Board (“GASB”) Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*. The primary object of this statement is to provide temporary relief to governments and other stakeholders in light of the COVID-19 pandemic by postponing the effective dates of certain provisions in GASB Statements and Implementation Guides that first became effective or are scheduled to become effective for period beginning after June 15, 2018, and later.

Implementation of this statement did not have a significant impact on the Successor Agency’s financial statements for the year ended June 30, 2020.

The Successor Agency is currently analyzing its accounting practices to determine the potential impact on the financial statements for the following GASB Statements:

- GASB Statement No. 84, *Fiduciary Activities*, effective for fiscal year ending June 30, 2021.
- GASB Statement No. 87, *Leases*, effective for fiscal year ending June 30, 2022.
- GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, effective for fiscal year ending June 30, 2022.
- GASB Statement No. 90, *Majority Equity Interests – an Amendment of GASB Statements No. 14 and No. 61*, effective for fiscal year ending June 30, 2021.
- GASB Statement No. 91, *Conduit Debt Obligations*, effective for fiscal year ending June 30, 2023.
- GASB Statement No. 92, *Omnibus 2020*, effective for fiscal year ending June 30, 2022.
- GASB Statement No. 93, *Replacement of Interbank Offered Rates*, effective for fiscal year ending June 30, 2022.
- GASB issued Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, effective for fiscal year ending June 30, 2023.
- GASB issued Statement No. 96, *Subscription-Based Information Technology Arrangements*, effective for fiscal year ending June 30, 2023.
- GASB issued Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans – an Amendment of GASB Statements No. 14 and No. 84, and a Supersession of GASB Statement No. 32*, effective for fiscal year ending June 30, 2022.

Note 8 - Contingencies

The Successor Agency has filed a petition for writ of mandate in the Sacramento Superior Court seeking a court order that would require the California State Department of Finance to permit the reinstatement and repayment of 17 additional loans. The trial court ruled in favor of the Successor Agency, in part, and ordered the Department of Finance to reconsider its decision denying 13 of the 17 loans. The Department of Finance filed a notice of appeal on September 16, 2016. On August 7, 2019, the Appellate Court dismissed the appeal and issued a remittitur remanding the matter back to the Sacramento Superior Court. The Department of Finance subsequently filed a statement refusing to follow the court’s order to reverse its decision to deny 13 of 17 loans. On December 1, 2019, the Superior Court ruled in favor of the Successor Agency on 13 of the 17 loans. The Department of Finance appealed the Superior Court’s decision. The Successor Agency filed a Respondent’s Brief in December of 2020 and anticipates a hearing to be scheduled in 2021.

² Covered Payroll represents total pensionable payroll of employees that are provided pensions through the pension plan.

³ The Successor Agency's proportionate share of aggregate contributions may not match the actual contributions made by the employer during the measurement period. The Successor Agency's proportionate share of aggregate contributions is based on the Successor Agency's proportion of fiduciary net position in the table above as well as any additional side fund (or unfunded liability) contributions made by the employer during the measurement period.

SUCCESSOR AGENCY TO THE REDEVELOPMENT AGENCY OF THE CITY OF FRESNO
(A Private Purpose Trust Fund of the City of Fresno, California)
 Required Supplementary Information (Continued)
 For the Year Ended June 30, 2020

Notes to Required Supplementary Information

Change in Benefit Terms - The figures above do not include any liability impact that may have resulted from plan changes which occurred after June 30, 2013, as they have minimal cost impact. This applies for voluntary benefit changes as well as any offers of Two Years Additional Service Credit (a.k.a Golden Handshakes). The Successor Agency does not have separately financed employer-specific liabilities at June 30, 2018.

Change in Discount Rate – In December 2016, the CalPERS Board of Administration voted to lower the discount rate gradually to 7.0 percent by FY 2019-2020 measurement period.

Change in Assumptions – In December 2017, the CalPERS Board of Administration adopted new actuarial assumptions based on the recommendations in the December 2017 CalPERS Experience Study and Review of Actuarial Assumptions.

- This study reviewed the retirement rates, termination rates, mortality rates, rates of salary increases and inflation assumption for Public Agencies. These new assumptions were incorporated the actuarial valuations and impacted the required contribution for FY 2019-20.
- In addition, the Board adopted a new asset portfolio as part of its Asset Liability Management. The new asset mix supports a 7.00 percent discount rate. The reduction of the inflation assumption will be implemented in two steps in conjunction with the decreases in the discount rate. For the June 30, 2017 valuation an inflation rate of 2.625 percent was used and a rate of 2.50 percent will be used in the following valuation.
- The CalPERS Board of Administration has adopted a new amortization policy effective with the June 30, 2019 actuarial valuation. The new policy shortens the period over which actuarial gains and losses are amortized from 30 years to 20 years with the payments computed using a level dollar amount. In addition, the new policy removes the 5-year ramp-up and ramp-down on UAL bases attributable to assumption changes and non-investment gains/losses. The new policy removes the 5-year ramp-down on investment gains/losses. These changes will apply only to new UAL bases established on or after June 30, 2019.

Actuarial Assumptions

**Independent Auditor's Report on Internal Control Over Financial Reporting and on
Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance With *Government Auditing Standards***

Members of the Oversight Board
Successor Agency to the Redevelopment Agency of the City of Fresno
Fresno, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Successor Agency to the Redevelopment Agency of the City of Fresno (the Successor Agency), a private purpose trust fund of the City of Fresno, California (the City) as of and for the year ended June 30, 2020, and the related notes to the financial statements, and have issued our report thereon dated December 31, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Successor Agency's internal control over financial reporting (internal control) as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Successor Agency's internal control. Accordingly, we do not express an opinion on the effectiveness of the Successor Agency's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Successor Agency's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Successor Agency's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Successor Agency's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Successor Agency's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
